

BIOLOGY, GCSE

Overview

This course covers a wide range of aspects of Biology, and will develop subject knowledge alongside practical and investigative skills.

What will I learn?

The course covers a range of topics from cell structure and transport in plants and animals to broader concepts of keeping healthy and evolution. Examples of specific areas include: homeostasis; energy and biomass in food chains; nerves and hormones; photosynthesis; tissues, organs and organ systems and humans and their environment.

Practical and Investigative skills are also an essential part of the course, and learners will develop skills such as designing an investigation and evaluating data. The controlled assessment component involves planning and carrying out investigations, including consideration of safety and data processing.

How will I be assessed?

There will be three examinations at the end of the course, each lasting 1 hour and contributing 25% of the marks. There will also be a controlled assessment component (Investigative Skills Assignment - two written assessments plus one or two lessons for practical work and data processing) contributing the remaining 25%.

Career Opportunities

Successful completion of this course may support progression to A level, BTEC or equivalent courses when achieved along with other GCSEs (or equivalent). A GCSE in a science subject is also an essential requirement for progression to some University courses such as Nursing or Science-related degree programmes (in addition to appropriate level 3 qualifications).

Entry requirements

There are no specific entry requirements for this course and should discuss this with the course tutor. You should be able to demonstrate literacy and numeracy at level 2 but this could be done by a task set for you.

All students interested in this course should contact the course tutor, Therasa Paul, prior to enrolment:

Email: Therasa.Paul@kendal.ac.uk

Fees

Adult fees

£400.00

Please note: If you are an adult student you may be entitled to financial support to cover the cost of your course, dependent on your circumstances. Please contact Student Services on enquiries@kendal.ac.uk for details. [More about Student Finance. \(page_2118\)](#)

We will recruit without prejudice and aim to provide the best possible learning experience for all our learners. See our full policy at www.kendal.ac.uk/equality-diversity. Please note that whilst every effort is made to ensure that any course information provided is accurate, the College reserves the right to vary the time, location, direction and content of any class it provides and the associated fees.
