

ELECTRICAL INSTALLATIONS

Course Mode	Full-time
Location	Milnthorpe Road Campus
Duration	1 Year
Level	2

Course Overview

This course will give you the skills and knowledge to solve practical problems of an electrical nature. Electrical installation is an interesting and popular career, with skilled tradesman in high demand.

The course usually runs over 3 days a week.

Our tutors are highly qualified with relevant industry and teaching experience. The facilities and equipment are representative of what is used in domestic, commercial and industrial settings.

The department usually runs 2 or 3 trips per year. Previous trips have included visits to local electrical wholesalers, electrical firms and providers of specialist equipment.

Kendal College have developed excellent links with local employers - many of whom offer students work experience opportunities. This adds value to the students' CV and also allows employers to identify student's potential.

On this programme, students will gain teamwork, communication, dexterity and time management skills. You will also gain an awareness of health and safety regulations.

Teaching will be 50/50 between theory or practical lessons. Theory is learnt first, followed by practical and then assessment.

Modules include:

- Health & Safety in Electrical Installation
- Electrical Installation Theory & Technology
- Electrical Installation Methods, Procedures & Requirements

- Electrical Installation Craft Skills
- Electrical Science & Principles

Assessment usually commences from December. Ongoing assessment through practical work continues through the year, and a 21 hour assessment will take place at the end of the year. There will be 5 theory exams over the course of the academic year.

Entry Requirements

For Level 2 entry, you will need four GCSEs at 4 or above, including English & Maths.

After your course

On completion of the Level 2 qualification you can progress on to the Level 3 Diploma in Electrical Installation (Building & Structures) or you could go straight into work and seek employment as an Apprentice / Advanced Apprentice Electrician.

Fees

£1250.00

The fee displayed is the course fee. Course fees are per year for full-time & degree-level courses, and per course for part-time courses.
