This new qualification will help you gain an understanding of the BSE industry and the sector. You will cover topics such as Health and Safety, construction science principles, sustainability in the construction industry and building services engineering systems.

Candidates will have the choice of studying two occupational specialisms from the list below:

- Air conditioning engineering
- Electrical and electronic equipment engineering
- Electrotechnical engineering
- Gas engineering

- Heating engineering
- Plumbing engineering
- Protection systems engineering
- Refrigeration engineering
- Ventilation engineering

The structure of the qualification is designed to give learners the breadth of knowledge and understanding across the BSE industry but also equips them with the necessary occupational, knowledge, and skills to enter the industry. This qualification is designed to support fair access and allows learners to manage and improve their own performance.

**Kendal College has state of the art facilities and a range of specialist teachers in this chosen pathway.**

This technical qualification focuses on the development of knowledge and skills needed for working in the Building Services Engineering industry, which will prepare you to enter the industry through employment or as an Apprentice. Furthermore, the completion of this qualification gives the learner the opportunity to progress onto higher education courses and training.

The Technical Qualification will be delivered through approaches that meet the needs of our learners. Using a variety of delivery methods, including both classrooms and real work environments.

Learners benefit from both direct instruction in more formal learning environments and taking part in investigative projects, e-learning and their own study and learning through indirect approaches to delivery.

## Entry Requirements

We would expect GCSEs at Grade 4 or above in English & Maths, and the appropriate attainment at Level 2 before commencing their T-Level study programme.

## After your course

The College offers an HND in Electrical Engineering, or you could progress onto a career at BAE, the NHS or EDF, for example.

Whatever your chosen route, Kendal College will offer guidance and contacts to support all our learners towards a bright future.

## Fees

*Course fees are per year for full-time & degree-level courses, and per course for part-time courses.*

The current full-time & degree-level fee information is related to the 2020/21 academic year and is subject to change before the start of the course. Fees for 2021/22 will be updated in the Spring Term 2021. There may also be additional costs associated with the course.

**You may qualify for financial support to cover the cost of a government-funded qualification up to and including Level 2, if you:**

- Receive an eligible means-tested benefit e.g. JSA, ESA or Universal Credit
- Have an annual salary of less than £17,004
- Are aged 16-18 on 31/08/20 and are not studying at another school/college
- Are aged 19-23 on 31/08/20 and do not already have a Level 1 or 2 qualification
- Have a household income under £25,000 and are in financial hardship

### **Student Finance**

Whether you qualify for student finance depends on specific criteria. The main student finance package for full-time students includes a tuition fee loan and maintenance loan for living costs. Part-time students can access a tuition fee loan to pay for your course.

Generally, you will only get student finance if you're doing your first degree-level qualification. This is true even if your previous course was self-funded.

For further information please see [www.gov.uk/student-finance](http://www.gov.uk/student-finance).

### **Access to Learning Fund**

The Access to Learning Fund is a non-repayable discretionary fund that gives students facing hardship extra financial support to access and remain in higher education. This can be accessed via the college. Please speak to [Student Services](#) for more information.
